

Try the new NHS App

If you are a patient at our practice you can now use the NHS App, a simple and secure way to access a range of NHS services on your smartphone or tablet.

You can use the NHS App to check your symptoms and get instant advice, book appointments, order repeat prescriptions, view your GP medical record and access other NHS services.

If you already have access to Patient Online Services you can continue to use it. You can use the NHS App in addition.

Patients can find out about the NHS App by asking at our reception or by visiting www.nhs.uk/nhsapp where there are links to download it from app stores.

The NHS App will not replace existing services. Patients can continue to use GP online services or contact the practice in the usual ways if they prefer.

Where to go for help?

Patients can get help with the NHS App at www.nhs.uk/apphelp

If patients cannot find the help they need on this page, they can contact www.nhs.uk/contact-us/nhs-app-feedback-form
