

Greystones Patient Participation Group (PPG)

We are a group of volunteer patients and practice staff working together with the aim of enhancing the patient experience at Greystones Medical Centre.

Membership is open to all adult Greystones patients (18yrs+).

What the PPG does

Helps the practice develop its services by carrying out patient surveys and feeding back patient views.

Produces newsletters and information leaflets, making patient advice and information accessible.

Acts as a patient voice within the practice, locally and across the city

Why not join us?

Face-to-Face Group

- Meets quarterly
- Oversees and coordinates the work of the PPG
- Forms small working groups to produce newsletters and patient information materials
- Meeting room space restricts membership to 14

E-Group

- Designed for those who want to contribute to the patient voice but are unable to attend meetings in person
- Communicates by email and contributions are passed to the face-to-face group through the e-group manager
- Input from the e-group is included on face-to-face group agendas and minutes from those meetings are shared back
- No limit to the number of members

Our newsletters and other publications are on the PPG section of the Greystones Medical Centre website or pick up printed copies in reception

Ready to join?

Application forms are available on the PPG section of Greystones Medical Centre website or from reception
